

An Analysis Sparked By Lightening.

Team members: Hannah Carnes,
Tiffany Conrad, Damla Duman, John
Olton, Patrick Schulze

Project description/outline:

- Wildfire patterns month-by-month.
- Check total number of fires over the years.

Datasets to be

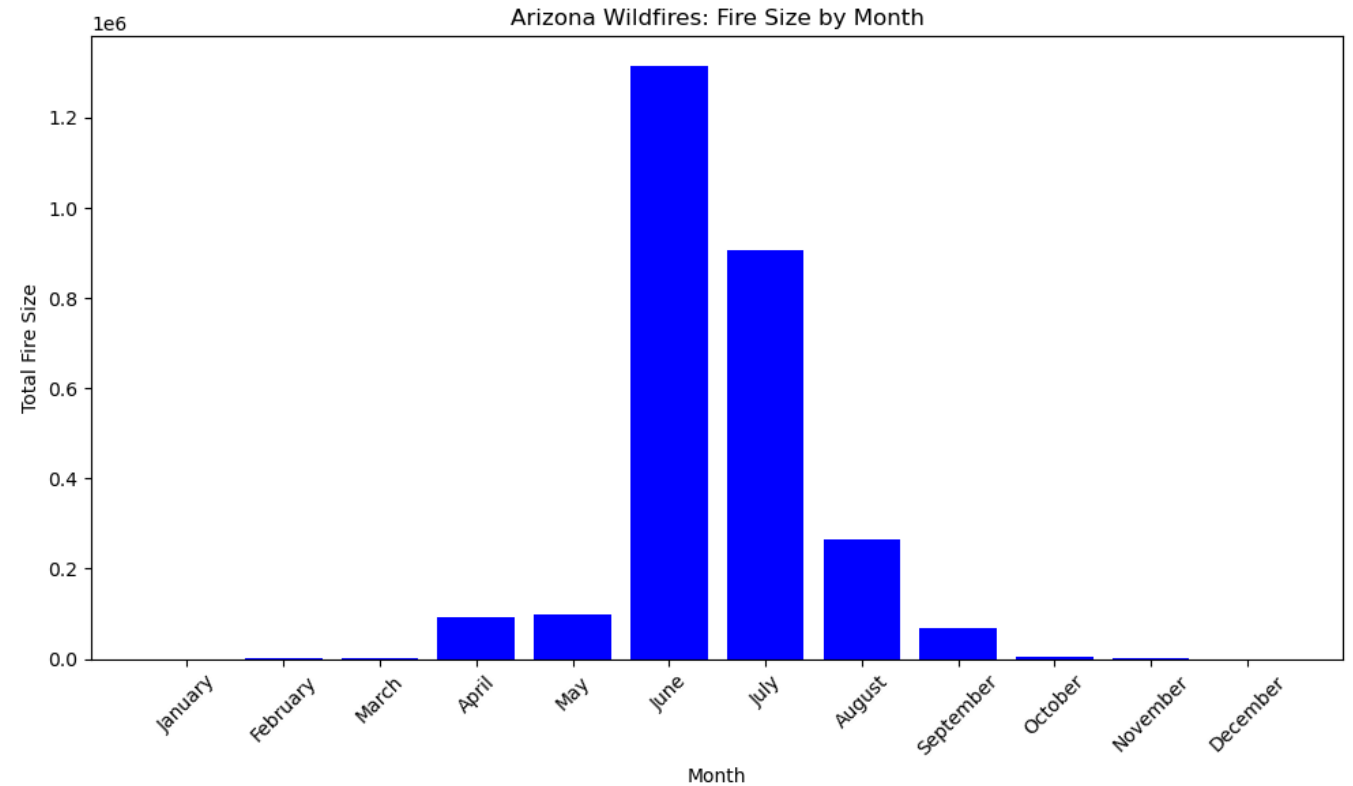

used: <https://www.kaggle.com/datasets/aestheteaman/01/278k-us-wildfires-due-to-lightning-2004-2015>

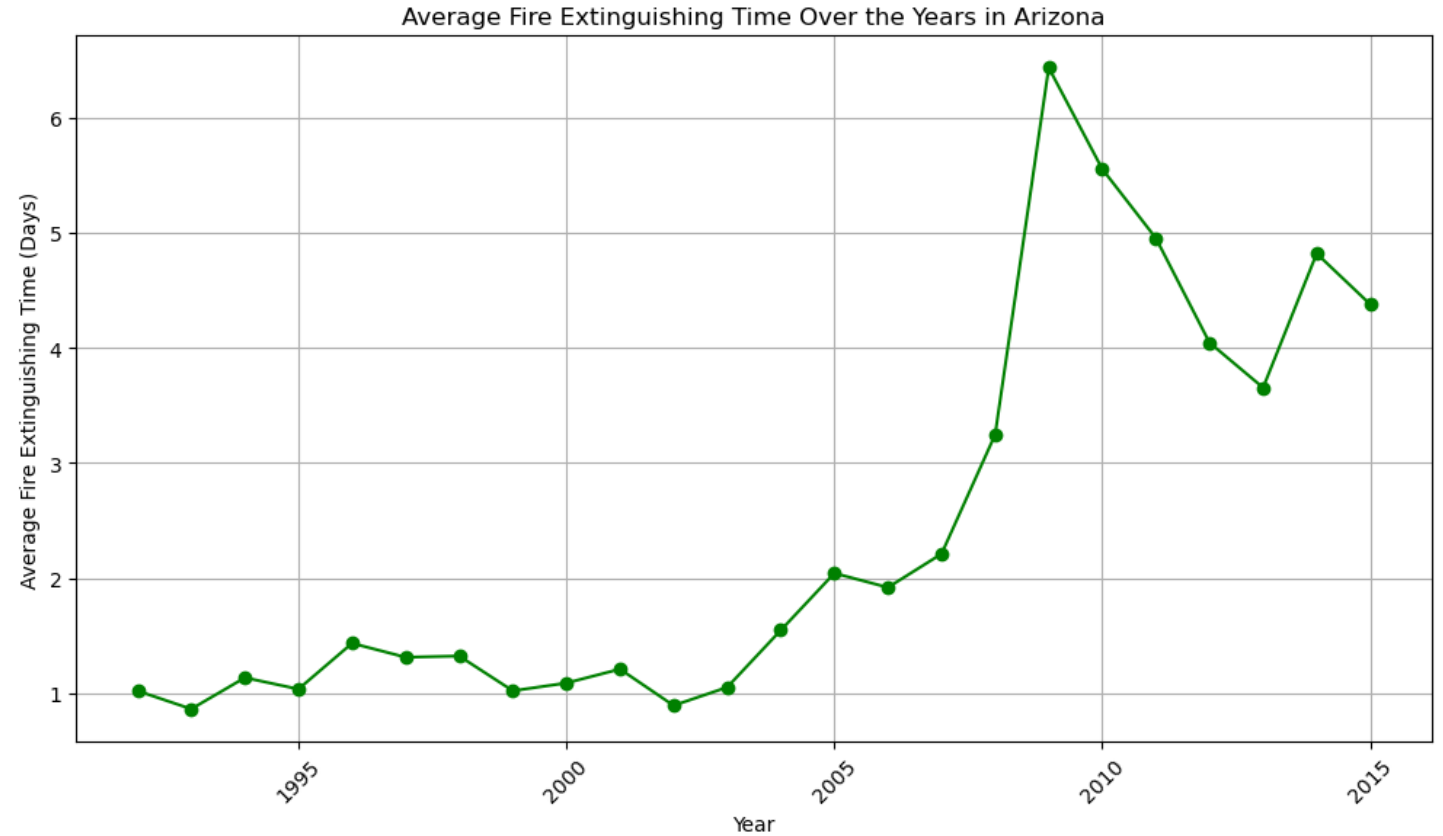

Research questions:

1. What is each state's fire season based on month vs state?
2. Has fire fighting gotten more efficient/effective over time?
3. Have fire sizes changed over time? Is there a trend?
4. What state's have the most fires? Biggest fires?

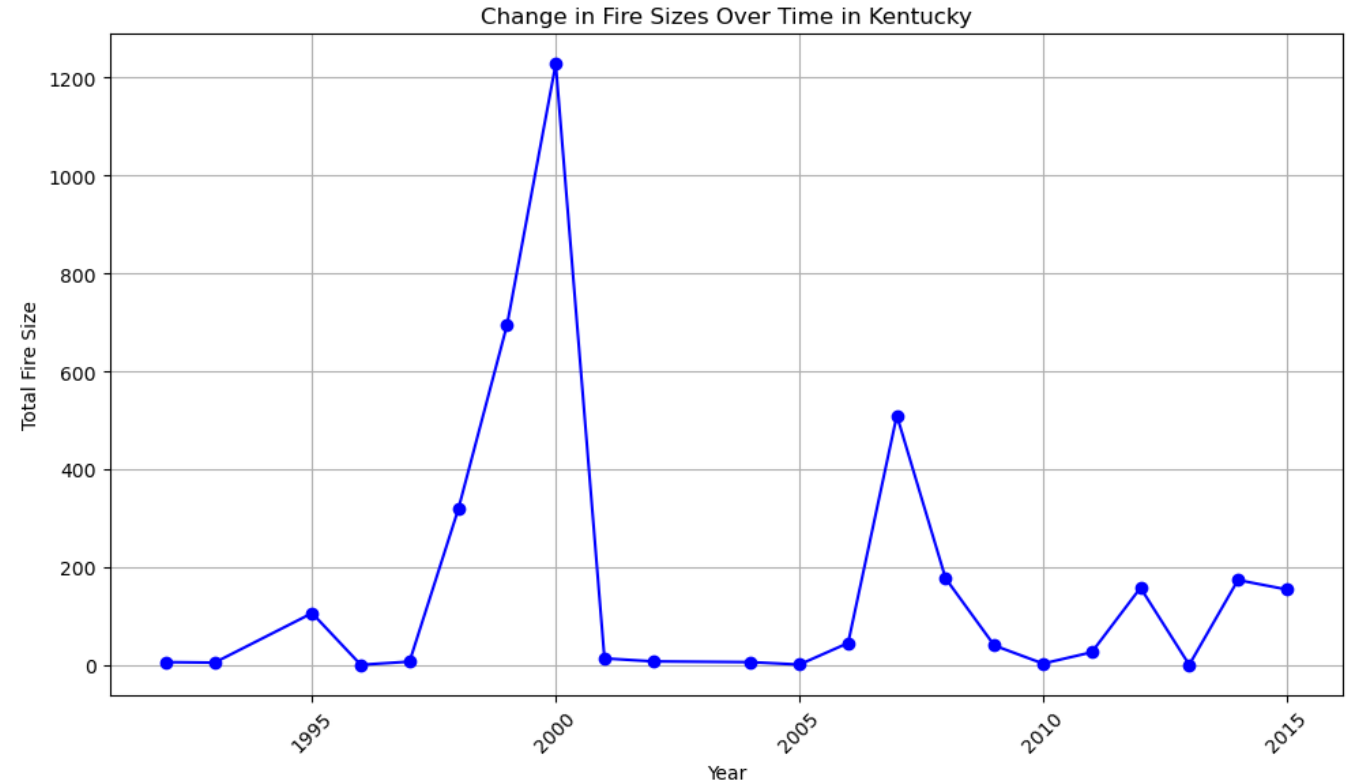

1. What is each state's fire season based on month vs state?

Has fire fighting
gotten more
efficient/effective
over time?

Have fire sizes changed over time? Is there a trend?

What state's
have the most
fires? Biggest
fires?
